CHILD SAFETY

PROPER TELEVISION PLACEMENT MATTERS

THE CONSUMER ELECTRONICS INDUSTRY CARES

- Manufacturers, retailers, and the rest of the consumer electronics industry are committed to making home entertainment safe and enjoyable.
- As you enjoy your television, please note that all televisions - new and old - must be supported on proper stands or installed according to the manufacturer’s recommendations. Televisions that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests, carts, etc., may fall over, resulting in injury.

TUNE IN TO SAFETY

- ALWAYS follow the manufacturer’s recommendations for the safe installation of your television.
- ALWAYS read and follow all instructions for proper use of your television.
- NEVER allow children to climb on or play on the television or the furniture on which the television is placed.
- NEVER place the television on furniture that can easily be used as steps, such as a chest of drawers.
- ALWAYS install the television where it cannot be pushed, pulled over, or knocked down.
- ALWAYS route cords and cables connected to the television so that they cannot be tripped over, pulled, or grabbed.

WALL OR CEILING MOUNT YOUR TELEVISION

- ALWAYS contact your retailer about professional installation if you have any doubts about your ability to safely mount your television.
- ALWAYS use a mount that has been recommended by the television manufacturer and has a safety certification by an independent laboratory (such as UL, CSA, ETL).
- ALWAYS follow all instructions supplied by the television and mount manufacturers.
- ALWAYS make sure that the wall or ceiling where you are mounting the television is appropriate. Some mounts are not designed to be mounted to walls and ceilings with steel studs or cinder block construction. If you are unsure, contact a professional installer.
- Televisions can be heavy. A minimum of two people is required for a wall or ceiling mount installation.

MOVING AN OLDER TELEVISION TO A NEW PLACE IN YOUR HOME

- Many new television buyers move their older CRT televisions into a secondary room after the purchase of a flat-panel television. Special care should be made in the placement of older CRT televisions.
- ALWAYS place your older CRT television on furniture that is sturdy and appropriate for its size and weight.
- NEVER place your older CRT television on a dresser where children may be tempted to use the drawers to climb.
- ALWAYS make sure your older CRT television does not hang over the edge of your furniture.

Important Safety Instructions

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN

This symbol indicates that dangerous voltage constituting a risk of electric shock is present within your TV. This label is located on the back of your TV.

This symbol indicates that there are important operating and maintenance instructions in the literature accompanying your TV.

This symbol indicates that this product incorporates double insulation between the hazardous main voltage and user accessible parts. When servicing, use only identical replacement parts.

1 Read these instructions.
2 Keep these instructions.
3 Heed all warnings.
4 Follow all instructions.
5 Do not use this apparatus near water.
6 Clean only with dry cloth.
7 Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8 Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9 Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10 Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11 Only use attachments/accessories specified by the manufacturer.
12 Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13 Unplug this apparatus during lightning storms or when unused for long periods of time.
14 Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15 The wall plug is the disconnecting device. The plug must remain readily operable.
16 Remote control batteries should not be exposed to excessive heat such as sunshine, fire, or the like.
17 The apparatus should not be exposed to dripping or splashing, and no objects filled with liquids, such as vases, should be placed on the apparatus.
18 Your TV has four VESA mounting holes on the back. If you attach a wall-mount bracket or TV stand to the back of your TV, the bracket or stand must be securely attached using all four holes. If you do not use all four mounting holes, your TV may fall and cause property damage or personal injury. See the documentation that came with your wall mount or TV stand for complete mounting instructions.

WARNING

Electric shock hazard
To reduce the risk of fire or electric shock, do not remove any cover or expose the device to rain or moisture. No user-serviceable parts are inside. Refer servicing to qualified service technicians.

Lightning
For increased protection for your device receiver during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the power outlet and disconnect any antenna or cable system. This helps prevent property damage and personal injury from lightning and power line surges.

Power lines
An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, take extreme care to keep from touching such power lines or circuits as contact with them might be fatal.

Handling the LCD panel
- Your TV’s screen is made of glass. Do not drop your TV or hit, jolt, or press hard against the LCD panel. If the screen breaks, be careful of broken glass.
- If the LCD panel is broken, make absolutely sure that you do not touch the liquid in the panel. This may cause skin inflammation.
- If the liquid gets in your mouth, immediately gargle, rinse, and consult with your doctor. Also, if the liquid gets in your eyes or touches your skin, consult with your doctor after rinsing for at least 15 minutes or longer in clean water.
Replacement parts
When replacement parts are required, make sure that the service technician uses replacement parts specified by the manufacturer that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, personal injury, or other hazards.

Safety check
After completing any service or repair to this device, ask the service technician to perform routine safety checks to determine that your TV is in correct operating condition.

Power source
Operate your TV only from the type of power source indicated on the marking label. If you are not sure of the type of power supplied to your home, consult an electrician or your local power company.

Servicing
These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.

CAUTION
Damage requiring service
Unplug this TV from the power outlet and refer servicing to qualified service personnel under the following conditions:
- When the power supply cord or plug is damaged or frayed.
- If liquid has been spilled or objects have fallen into your TV.
- If your TV has been exposed to rain or water.
- If your TV does not operate normally by following the operating instructions. Adjust only those controls covered by the operating instructions because incorrect adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore your TV to its normal operation.
- If your TV has been dropped or damaged in any way.
- When your TV exhibits a distinct change in performance.

Outdoor antenna grounding
If an outside antenna or cable system is connected to your TV, provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA No. 70, provides information with respect to correct grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of the antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

Note to CATV system installer
Article 820 of the National Electrical Code, ANSI/NFPA No. 40 provides guidance for correct grounding. Specifically, it states that the cable ground must be connected to the grounding system of the building as close to the point of cable entry as practical.

Condensation
Moisture will form on the TV if the TV is brought from cool surroundings into a warm room or if the temperature of the room rises suddenly. When this happens, the TV’s performance may be impaired. To prevent this, let the TV stand in its new surroundings for about an hour before switching it on, or make sure that the room temperature rises gradually. Condensation may also form during the summer if the TV is exposed to the breeze from an air conditioner. In such cases, change the location of the TV.

Mobile telephone warning
To avoid interference with your TV picture and sound, operating problems, or even damage, keep your cordless and cellular telephones away from the TV.

End of life directives
Your TV may contain materials that are regulated for environmental reasons. Your TV also contains materials that can be recycled and reused. To help protect the environment, contact your local authorities for information about disposal or recycling and about finding a recycler in your area before you dispose of your TV.

Non-active pixels
The LCD panel contains almost 3 million thin film transistors, which provide exceptionally sharp video quality. Occasionally, a few non-active pixels may appear on the screen as a fixed blue, green, or red point. These non-active pixels do not adversely affect the performance of your TV, and are not considered defects.
Welcome

Congratulations on the purchase of your new TV! Discover the joy of endless entertainment. After it's set up, you'll be able to access a world of streaming content channels that may include Netflix, YouTube, Crackle, CNET, and literally thousands more.

The new standard in Smart TVs

Welcome to TV like you've most likely never seen before—a home screen that you can personalize with your favorite devices and streaming channels. Choose from hundreds of thousands of streaming movies and TV episodes, plus music, sports, kids, family, international, and much more. You should never run out of things to watch.

Get the most out of your new TV

Follow these simple steps to get the most out of your new TV.

1. Connect to the Internet
   - It's simple, it's easy, and it will unlock a world of entertainment. All you need is a network connection. There are hundreds of free streaming channels, paid subscriptions services like Netflix and Spotify, convenient ways to rent or buy a favorite film or show with Google Play and Cineplex, and more.

2. Pick your favorite streaming channels
   - Find the entertainment you love. From the latest blockbuster movies to your favorite TV shows, with tons of live sports, a broad selection of music streaming channels, popular programming in a dozen international languages, 24x7 live news, and so much more, your new TV has your sweet spot. A paid subscription or other payments may be required for some channels.

3. Personalize your Home screen
   - Put your favorite broadcast TV, streaming channels, gaming console, and other devices front-and-center on the Home screen. No more flipping through inputs or wading through complicated menus. You can even personalize the names of each input and move tiles around so your most-often used devices and streaming channels are only a click away.

4. Search for your favorite movie, TV show, actor, or director
   - After you're connected to the Internet, you can easily search across top streaming channels by movie or TV show title, actor, or director—all from one place. Search results are organized by price so you can always see the best priced option. A paid subscription or other payments may be required for some channels.

5. Pause live TV
   - Pause, resume, fast forward, and rewind TV shows. Simply connect your own USB drive with 16GB or bigger capacity to the TV and pause live TV for up to 90 minutes.

6. Send your personal media to the big screen
   - Send personal photos, videos, and music from your compatible smartphone or tablet to the TV screen in just a few taps. Plus, with certain channels, such as Netflix and YouTube, send movies, shows, sport highlights, and more directly to your TV.

Important

Your TV receives automatic updates from time to time, enabling new content and features. For more information about your TV, go to: https://go.roku.com/tvmanual

Note

A paid subscription or other payments may be required for some channels. Channel availability is subject to change and varies by country. Not all content is available in countries or regions where Roku products are sold.

Note

Live TV Pause is available on digital TV shows received on the TV's antenna input only, and only when the TV is linked to a valid Roku account.

Note

The Roku app for Microsoft Windows devices does not cast videos.
Follow movies coming soon

• Use My Feed to choose from and follow a list of upcoming movies, and then watch for alerts each time one of your followed movies becomes available or changes price.

<table>
<thead>
<tr>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>My Feed is not available in the Roku App for Windows devices in the United States or Canada.</td>
</tr>
</tbody>
</table>

Take charge with a smartphone or tablet

• Control your TV with the included remote or from your compatible smartphone or a tablet with the free mobile app for iOS®, Android™, and Windows™ mobile devices. Browse channels, view My Feed, listen to audio from streaming programs, and even search with voice via the free mobile app.

<table>
<thead>
<tr>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>Voice search, Mobile listening, and My Feed are not available in the Roku app for Windows devices.</td>
</tr>
</tbody>
</table>

• Mirror your compatible smartphone or tablet on your TV. Share videos, photos, web pages, and more from compatible devices.

• Use your compatible smartphone or tablet to connect your TV to the types of networks found in hotels and college dorms, where you may have to agree to terms, enter codes, or provide identifying information.

<table>
<thead>
<tr>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>Using your Roku TV on a restricted public network requires wireless availability and use of your network-connected smartphone, tablet, or computer to authenticate access to your account. Your TV must already be linked to your Roku account and activated. Also, you must use your Roku TV remote control, because the Remote feature of the Roku mobile app does not work on restricted public networks. Streaming content might be limited due to your geographic location or because of restrictions imposed by the wireless network host.</td>
</tr>
</tbody>
</table>

Many features work with top mobile devices. Go to http://support.roku.com for device compatibility information.

Let's get started.

Accessibility (U.S. models only)

Your TV provides audio descriptions of menus and some remote control functions. Depending on the broadcaster, audio narration of key elements in programs may also be available.

Visit http://go.roku.com/tvmanual for more information or contact us at 1-855-544-2030.
Installing the stands or wall-mount bracket

- If you want to place your TV on a table or in an entertainment center, go to Installing the stands.
- If you want to mount your TV on a wall, go to Installing a wall-mount bracket.

**Notes**
- If you plan to wall-mount your TV, do not install the stands.
- Store the stands and stand screws in case you decide to use the stands in the future.

**Installing the stands**

1. Carefully place your TV face-down on a cushioned, clean surface to protect the screen.

2. Slide the stands into the slots on the back of the TV. Make sure that the long ends of the stands face the front of the TV.

Installing a wall-mount bracket

**Warnings**

- Your TV has four VESA mounting holes on the back. If you attach a wall-mount bracket to the back of your TV, the **bracket must be securely attached, using all four holes**. If you do not use all four mounting holes, your TV may fall and cause property damage or personal injury. See the documentation that came with your wall mount for complete mounting instructions.
- Your TV is intended to be supported by a UL Listed wall mount bracket with suitable weight/load. (See *Miscellaneous* on page 44.)

1. Carefully place your TV face-down on a cushioned, clean surface to protect the screen.

3. Secure the stands to the TV with the two provided screws.
2 If the TV stands are installed, remove the two screws that secure the stands to your TV.

3 Attach the wall-mount bracket to your TV using the mounting holes on the back of your TV. See the instructions that came with the wall-mount bracket for information about how to correctly hang your TV.

**Notes**
- The length of the wall-mount screws vary depending on the wall-mount bracket you purchased. See the instructions that came with the wall-mount bracket for screw lengths.
- The mounting holes on the back of your TV take type M6 screws.
**SHARP • Roku TV**  
**TV components**

Your TV has built-in controls for adjusting basic settings and several sets of jacks for connecting devices to your TV.

This section contains information about:
- Package contents
- Front features
- Right side jacks
- Left side jacks
- Remote control

**Package contents**
- 32” LED Sharp Roku TV
- Remote control and batteries (2 AAA)
- TV stands (2)
- Screws (2)
- Power cord
- Quick Setup Guide
- Important Information
- Roku TV End User License Agreement (EULA)

**Front features**

Besides the viewing screen, the front has a remote control sensor, to receive the signals from the remote control (do not block), and a status indicator.

The status indicator lights red when your TV is off, turns off when your TV is on, or blinks when receiving commands from the remote control.

**Right side jacks**

</table>
# Button | Description
--- | ---
1 | (power) | Turns your TV on or off.
2 | (back) | The action depends on what you are doing with your TV:
- **Menu** — Goes back to the previous menu or screen.
- **Home screen tile** — Moves the highlight back to the Home menu option.
- **Watching Antenna TV or a TV input** — Returns to the screen from which the input was selected.
- **Playing streaming content** — Stops playing stream and returns to the previous menu or screen.
- **Browsing streaming content** — Goes to the previous level in the content tree.
3 | ^/vv<< and OK | Moves the highlight up or down one item.
- Moves the highlight left, if a < hint appears.
- When watching TV, displays your channel list.
- When playing most streaming videos, skips backward in the video.
- Moves the highlight to the right, if a > hint appears.
- When watching TV with the channel list displayed, dismisses the channel list.
- When playing most streaming videos, skips forward in the video.
- OK — Selects the highlighted option.
- When watching TV, displays information for the current TV program.
4 | (previous) | When playing streaming video that supports this feature or broadcast TV if Live TV Pause is enabled, cycles through 1×, 2×, and 3× rewind speeds.
- When playing streaming audio, jumps to the previous track/selection.
- When any menu, tile, or channel in the channel list is highlighted, jumps up one page.
- When using a virtual keyboard, jumps to the character at the top of the current column.
5 | (sleep) | First press displays a banner showing the remaining sleep time, if any, or **Sleep timer is off**. Subsequent presses cycle among the preset sleep time intervals:
- 30 minutes, 1 hour, 1.5 hours, 2 hours, and 3 hours. After it is set, the Sleep timer remains in effect regardless of what you are watching.
6 | (rewind) | When playing streaming video that supports this feature or broadcast TV if Live TV Pause is enabled, cycles through 1×, 2×, and 3× fast-forward speeds.
- When playing streaming audio, jumps to the next track/selection.
- When any menu, tile, or channel in the channel list is highlighted, jumps down one page.
- When using a virtual keyboard, jumps to the character at the bottom of the current column.
7 | (play/pause) | Pauses and plays streaming content.
8 | (home) | Immediately returns to the Home screen and stops playback if you are watching TV or streaming content.
9 | (options) | Displays an Options menu, but only when the Options hint in the upper right corner of the screen is not dimmed. The menu you see varies depending on what you are doing with your TV.
- Also, in most cases, pressing while video is playing displays an Options menu over part of the screen where you can adjust various picture and sound settings.
10 | (fast forward) | When playing streaming video that supports this feature or broadcast TV if Live TV Pause is enabled, cycles through 1×, 2×, and 3× fast-forward speeds.
- When playing streaming audio, jumps to the next track/selection.
- When any menu, tile, or channel in the channel list is highlighted, jumps down one page.
- When using a virtual keyboard, jumps to the character at the bottom of the current column.
### SHARP • Roku TV

</tr>
</thead>
</table>
| 11 | Streaming Channels Shortcuts | Dedicated buttons show the logos of featured streaming content providers. Pressing a button turns your TV on (if your TV is not already on), and if your TV is operating and is connected to the Internet, performs one of the following actions:
- Displays the streaming channel's main page if you have already added the channel to your Home screen.
- Displays the streaming channel's sign-up page if you have not already added the channel so that you can agree to any terms and fees for the service. |
| 12 | (volume up) | Turns the volume up one setting with each press. Press and hold to turn the volume up rapidly. A volume indicator shows the volume level while you are adjusting the volume and for a few seconds afterward. **Note:** If your TV is muted, pressing the button does not unmute the sound. |

### LC-32LB591U / LC-32LB591C 32” HD LED 720p Sharp Roku TV

<table>
<thead>

<td>Turns the volume down one setting with each press. Press and hold to turn the volume down rapidly. A volume indicator shows the volume level while you are adjusting the volume and for a few seconds afterward. <strong>Note:</strong> If your TV is muted, pressing the button does not unmute the sound.</td>
</tr>
<tr>
<td>14</td>
<td>(mute)</td>
<td>Mutes and unmutes the TV sound. A volume indicator shows the current volume level and a mute icon when you press the button and for a few seconds afterward. If <strong>Closed captioning</strong> is set to <strong>When Mute</strong>, captions are displayed while your TV is muted.</td>
</tr>
</tbody>
</table>
**SHARP • Roku TV**

**What connection should I use?**

Your TV has several connection types for connecting devices to your TV. For the best video quality, you should connect a device to the best available connection. Use the following tables to identify cables:

<table>
<thead>
<tr>
<th>Video quality</th>
<th>Connection type and jack</th>
<th>Cable connector</th>
</tr>
</thead>
<tbody>
<tr>
<td>Best (use this if your devices have HDMI®)</td>
<td>HDMI® video/audio</td>
<td><img src="image" alt="HDMI Cable" /></td>
</tr>
<tr>
<td>Good</td>
<td>AV (composite video) (requires an audio connection)</td>
<td><img src="image" alt="Composite Video Cable" /></td>
</tr>
<tr>
<td>Good</td>
<td>Coaxial video/audio</td>
<td><img src="image" alt="Coaxial Cable" /></td>
</tr>
</tbody>
</table>

**Cautions**

- Check the jacks for position and type before making any connections.
- Loose connections can cause poor audio or video quality. Make sure that all connections are tight and secure.
- The external audio/video devices shown may be different from your devices. If you have questions, refer to the documentation that came with your devices.
- Always turn off your TV when connecting external devices.
Connecting a cable or satellite box

Many cable or satellite TV boxes have more than one connection type. To get the best video, you should use the best connection type available. For more information, see What connection should I use? on page 16. You can connect your cable or satellite box using:

- HDMI® (best)
- AV (good)
- Coaxial (good)

HDMI® (best)

<table>
<thead>
<tr>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>For better picture quality, we recommend that you use cables designated as High Speed HDMI® cables.</td>
</tr>
</tbody>
</table>

1 Make sure that your TV's power cord is unplugged and all connected devices are turned off.
2 Connect the incoming cable from the cable wall jack to the cable-in jack on the cable or satellite box.
3 Connect an HDMI® cable (not provided) to an HDMI® jack on the left side of your TV and to the HDMI OUT jack on the cable or satellite box.
4 Plug your TV's power cord into a power outlet, turn on your TV, then turn on the cable or satellite box.
5 On the Home screen, press ▲ ▼ ◄ ► to highlight the HDMI 1, HDMI 2, or HDMI 3 tile, then press OK.

Note

An HDMI® cable carries both audio and video. You do not need to use any audio cables.
1. Make sure that your TV’s power cord is unplugged and all connected devices are turned off.
2. Connect the incoming cable from the cable wall jack to the cable-in jack on the cable or satellite box.
3. Connect an AV cable (not provided) to the VIDEO jack and L and R (audio) jacks on the left side of your TV and to the AV and audio out jacks on the cable or satellite box.

**Note**
When you connect the audio using the L and R (audio) jacks, the audio output is analog.

4. Plug your TV’s power cord into a power outlet, turn on your TV, then turn on the cable or satellite box.
5. On the Home screen, press ▲▼◄► to highlight the AV tile, then press OK.
1. Make sure that your TV’s power cord is unplugged and all connected devices are turned off.
2. Connect the incoming cable from the cable wall jack to the cable-in jack on the cable or satellite box.
3. Connect a coaxial cable (not provided) to the ANT/CABLE IN jack on the left side of your TV and to the coaxial out jack on the cable or satellite box.
4. Plug your TV’s power cord into a power outlet, turn on your TV, then turn on the cable or satellite box.
5. On the Home screen, press \( \uparrow \) or \( \rightarrow \) to highlight the Antenna TV tile, then press OK. If you have not set up the TV tuner, follow the on-screen instructions.

**Notes**
- Use a coaxial cable to eliminate interference and noise from radio waves.
- Do not bundle the coaxial cable with the power cord or other cables.
Connecting an antenna or cable TV (no box)

1. Make sure that your TV's power cord is unplugged and all connected devices are turned off.
2. Connect a coaxial cable (not provided) to the **ANT/CABLE IN** jack on the left side of your TV and to the antenna or cable TV wall jack.
3. Plug your TV's power cord into a power outlet, then turn on your TV.
4. On the **Home** screen, press **△ ▽ ▼ ▶** to highlight the **Antenna TV** tile, then press **OK**. If you have not set up the TV tuner, follow the on-screen instructions.

**Notes**
- Use a coaxial cable to eliminate interference and noise from radio waves.
- Do not bundle the coaxial cable with the power cord or other cables.
- If the antenna is not installed correctly, contact qualified service personnel to correct the problem.
- If the signal level for a channel is weak, the picture may be distorted. Adjust the antenna or use a highly directional outdoor or set-top antenna with a built-in amplifier.
- If the picture quality is good on some channels and poor on others, the problem may be caused by a poor or weak signal from the broadcaster or cable TV provider.
- If you connect to cable TV without a set-top box and experience poor picture quality, you may need to install a set-top box to improve signal reception and picture quality. Contact your cable TV provider about upgrading to a set-top box.
- Many high-definition (HD) channels upscale standard-definition (SD) content. The picture displayed on your TV is still displayed as SD, thus the picture quality will not be as clear or crisp as it would be if the content was originally recorded in HD.
Connecting a DVD or Blu-ray player

Many DVD or Blu-ray players have more than one connection type. To get the best video, you should use the best connection type available. For more information, see What connection should I use? on page 16.

You can connect a DVD or Blu-ray player using:
- HDMI® (best)
- AV (good)

**HDMI® (best)**

Note
For better picture quality, we recommend that you use cables designated as High Speed HDMI® cables.

1. Make sure that your TV's power cord is unplugged and the DVD or Blu-ray player is turned off.
2. Connect an HDMI® cable (not provided) to an HDMI jack on the left side of your TV and to the HDMI OUT jack on the DVD or Blu-ray player.
3. Plug your TV's power cord into a power outlet, then turn on your TV and DVD or Blu-ray player.
4. On the Home screen, press ▲▼◄► to highlight the HDMI 1, HDMI 2, or HDMI 3 tile, then press OK.

**Note**
An HDMI® cable carries both audio and video. You do not need to use any audio cables.
1. Make sure that your TV’s power cord is unplugged and the DVD or Blu-ray player is turned off.

2. Connect an AV cable (not provided) to the VIDEO jack and L and R (audio) jacks on the left side of your TV and to the AV OUT jacks on the DVD or Blu-ray player.

   **Note**
   Cables are often color-coded to match color-coded jacks.

   When you connect the audio using the L and R (audio) jacks, the audio output is analog.

3. Plug your TV’s power cord into a power outlet, then turn on your TV and DVD or Blu-ray player.

4. On the Home screen, press ➢ or ➤ to highlight the AV tile, then press OK.
Connecting a game console

Many game consoles have more than one connection type. To get the best video, you should use the best connection type available. For more information, see What connection should I use? on page 16.

You can connect a game console using:
- HDMI® (best)
- AV (good)

HDMI® (best)

1. Make sure that your TV's power cord is unplugged and the game console is turned off.
2. Connect an HDMI® cable (not provided) to an HDMI jack on the left side of your TV and to the HDMI OUT jack on the game console.
3. Plug your TV's power cord into a power outlet, then turn on your TV and the game console.
4. On the Home screen, press ▼ ▲ ◀ ► to highlight the HDMI 1, HDMI 2, or HDMI 3 tile, then press OK.

Note

For better picture quality, we recommend that you use cables designated as High Speed HDMI® cables.

Note

An HDMI® cable carries both audio and video. You do not need to use any audio cables.
1. Make sure that your TV’s power cord is unplugged and the game console is turned off.

2. Connect the game console’s AV cable (not provided) to the VIDEO jack and L and R (audio) jacks on the left side of your TV and to the AV jack(s) on the game console.

3. Plug your TV’s power cord into a power outlet, then turn on your TV and the game console.

4. On the Home screen, press ▲▼◄► to highlight the AV tile, then press OK.
Connecting a computer

You can use an HDMI® jack on your TV to connect to a computer.

**Note**
For better picture quality, we recommend that you use cables designated as High Speed HDMI® cables.

1. Make sure that your TV’s power cord is unplugged and the computer is turned off.
2. Connect an HDMI® cable (not provided) to an HDMI® jack on the left side of your TV and to the HDMI OUT jack on the computer.
3. Plug your TV’s power cord into a power outlet, then turn on your TV and the computer.
4. On the Home screen, press ▲, ▼, ◀, or ▶ to highlight the HDMI 1, HDMI 2, or HDMI 3 tile, then press OK.
5. Adjust the display properties on the computer, if necessary.
Connecting a USB flash drive

When you connect a USB flash drive to the USB jack on your TV, you can view photos and videos or listen to music stored on the drive or you use the Live TV Pause feature to pause live TV for up to 90 minutes.

1. Plug a USB flash drive into the USB port on the right side of your TV.

   **Caution**
   Do not remove the USB flash drive or turn off your TV while using the USB flash drive. You may lose data or damage the USB flash drive.

2. Press ▲ or ▼ to highlight the Roku Media Player or USB Media Player tile, then press OK.
Connecting headphones

When you connect headphones, your TV speakers are muted and sound only plays through the headphones.

| Warning | Loud noise can damage your hearing. When using headphones, use the lowest volume setting on your headphones that still lets you hear the sound. |

Note

- Connect the headphones to the jack on the left side of your TV.

| Note | You can also connect a home theater system, sound bar, or external speaker system to the jack.|
Connecting external speakers or a sound bar

When you connect external speakers or a sound bar, sound plays through your TV speakers and the external speakers or sound bar.

You can connect external speakers or a sound bar using:

- Digital audio using the DIGITAL OUTPUT (OPTICAL) jack
- Digital audio using the HDMI1/ARC jack
- Analog audio using the headphone jack
- Analog audio using the LINE OUT jack

Digital audio using the DIGITAL OUTPUT (OPTICAL) jack

1. Make sure that your TV’s power cord is unplugged and the digital speaker system or sound bar is turned off.
2. Connect a digital optical audio cable (not provided) to the DIGITAL OUTPUT (OPTICAL) jack on the right side of your TV and to the digital optical AUDIO IN jack on the digital speaker system or sound bar.
3. Plug your TV’s power cord into a power outlet, then turn on your TV.
4. Turn on the digital speaker system or sound bar, then set it to the correct source. For more information, see the documentation that came with the digital speaker system or sound bar.
5. To turn off your TV speakers, on the Home menu, press \ or \ to highlight Settings, then press OK. Highlight Audio, then press OK. Highlight TV speakers, then press OK. Press OK to remove the check from the TV speakers enabled check box.
Digital audio using the HDMI1/ARC jack

Your TV can send sound to an ARC device, like an AV receiver, to create a home theater that uses two or more speakers. When you connect external speakers or a sound bar, sound plays through your TV speakers and the external speakers or sound bar.

1. Make sure that your TV’s power cord is unplugged and the digital speaker system or sound bar is turned off.
2. Connect an HDMI® cable (not provided) to the HDMI1/ARC jack on the right side of your TV and to the HDMI IN jack on the digital speaker system or sound bar.
3. Plug your TV’s power cord into a power outlet, then turn on your TV.
4. Turn on the digital speaker system or sound bar, then set it to the correct source. For more information, see the documentation that came with the digital speaker system or sound bar.
5. To turn off your TV speakers, on the Home menu, press ▲ or ▼ to highlight Settings, then press OK. Highlight Audio, then press OK. Highlight TV speakers, then press OK. Press OK to remove the check from the TV speakers enabled check box.
6. To configure the HDMI1/ARC jack to output sound to an ARC device, on the Home menu, press ▲ or ▼ to highlight Settings, then press OK. Highlight System, then press OK. Highlight Control other devices (CEC), then press OK. Highlight HDMI ARC, then press OK to check the box.
Analog audio using the headphone jack

When you connect an analog system or sound bar to the \( \Omega \) jack, your TV speakers are muted.

1. Make sure that your TV's power cord is unplugged and the analog speaker system or sound bar is turned off.
2. Connect an audio cable (not provided) to the \( \Omega \) jack on the right side of your TV and to the \textbf{AUDIO IN} jacks on the analog speaker system or sound bar.
3. Plug your TV's power cord into a power outlet, then turn on your TV.
4. Turn on the analog speaker system or sound bar, then set it to the correct source. For more information, see the documentation that came with the analog speaker system or sound bar.
Analog audio using the **LINE OUT** jack

When you connect an analog speaker system or soundbar to the **LINE OUT** jack, sound plays through the TV speakers and the audio device.

1. Make sure that your TV's power cord is unplugged and the analog speaker system or soundbar is turned off.
2. Connect an audio cable (not provided) to the **LINE OUT** jack on the right side of your TV and to the **AUDIO IN** jacks on the analog speaker system or soundbar.
3. Plug your TV's power cord into a power outlet, then turn on your TV.
4. Turn on the analog speaker system or soundbar, then set it to the correct source. For more information, see the documentation that came with the analog speaker system or soundbar.

**Note**

Use the volume controls on the analog speaker system or soundbar to control the volume.
Connecting a home theater system with multiple devices

You can connect an AV receiver and your devices to create a home theater.

The connections you make depend on the video and audio jacks available on your devices. Refer to the documentation that came with your devices for connection information. Just remember to use the best connection types available for the best picture and sound. For information about connection types, see What connection should I use? on page 16.
Connecting power

You should connect devices **before** you connect the power cord. When you are adding devices, make sure that the power cord is unplugged from the power outlet.

1. Connect the power cord to the power connector on the back of your TV.
2. Connect the other end of the cord to a power outlet.

**Caution**
- Your TV should only be operated from the power source indicated on the label.
- Always unplug the power cord from the power outlet when you will not be using your TV for an extended period of time.
Installing remote control batteries

Open the back of your TV remote control and insert two AAA batteries, observing the proper orientation. Reattach the back cover.

Remote control on page 14 explains how to use the remote control in each of your TV’s operating modes.

<table>
<thead>
<tr>
<th>Cautions</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Batteries should not be exposed to excessive heat, such as sunshine, heat registers, or fire.</td>
</tr>
<tr>
<td>• Battery chemicals can cause a rash. If the batteries leak, clean the battery compartment with a cloth. If chemicals touch your skin, wash immediately.</td>
</tr>
<tr>
<td>• Make sure that batteries are disposed of correctly. Do not burn or incinerate.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Do not mix batteries of different types.</td>
</tr>
<tr>
<td>• Do not mix old and new batteries.</td>
</tr>
<tr>
<td>• Remove batteries when the charge is depleted.</td>
</tr>
<tr>
<td>• If the remote control is not going to be used for an extended period of time, remove the batteries.</td>
</tr>
</tbody>
</table>

Aiming the remote control

• Point the remote control towards the remote sensor on the front of your TV.
Setting up your TV

When you turn on your TV for the first time, Guided Setup starts. During Guided Setup:
- Your TV automatically detects your wireless network, so have your network name and password handy and follow the easy on-screen instructions.
- You’ll be prompted to create your Roku account online at https://my.roku.com/link. Your TV generates a unique code that links your TV to your new account.
- After you are connected to your account, your TV automatically updates with the latest software, and you can start streaming immediately.

Using your TV

For more information about Guided Setup and using Roku, go to https://go.roku.com/tvmanual

Maintaining

- Do not use your TV in areas that are too hot or too cold, because the cabinet may warp or the screen may malfunction.
- Your TV works best in temperatures that are comfortable to you.
- Storage temperatures are 5° to 113°F (-15° to 45°C).
- Working temperatures are 41° to 95°F (5° to 35°C).
- Do not place your TV in direct sunlight or near a heat source.

Cleaning your TV cabinet

Clean the cabinet with a soft, lint-free cloth. If the cabinet is especially dirty, moisten a soft, lint-free cloth in a weak detergent solution, squeeze the excess moisture from the cloth, then wipe the cabinet with the cloth. Use a clean cloth to dry the cabinet.

Cleaning your TV screen

Clean the screen with a soft, lint-free cloth.
### Troubleshooting

**Warning**
Do not try to repair your TV yourself. Contact authorized service personnel.

**Note**
If the problem is not solved by using these troubleshooting instructions, turn off your TV, then turn it on again.

**Note**
If you have any other questions about how to use your TV that are not covered in this User Guide, go to [http://support.roku.com](http://support.roku.com) and select your TV brand and model.

## FAQ
For the latest answers to Frequently Asked Questions, visit the Common Questions section at [https://www.sharp.tvusa.com/support](https://www.sharp.tvusa.com/support) and the Support section of the Roku website ([www.roku.com](http://www.roku.com)).

### Video and audio

• Make sure that the channels are not hidden. The channel may have been deleted from the channel list. You can add the channel back to the channel list. |
|                                              | The wrong input may be selected                     | • Make sure that you have selected the correct input tile for the device or service you are trying to use. |
|                                              | You may need to use the remote control that came with the cable or satellite box | • If you are using a cable or satellite box, use the remote that came with that box to change channels. |
| I lost my parental control PIN               | Need PIN recovery                                   | • You will need to factory reset your TV, as the PIN cannot be recovered or reset any other way. Go to Settings > System > Advanced system settings > Factory reset. |
| Some settings cannot be accessed             | Not all settings are available for all devices or inputs | • If the icon or a menu option is grayed, you cannot adjust settings for the current video input mode. |
| TV cabinet creaks                             | This is normal                                      | • When your TV is in use, the temperature rises naturally and may cause the cabinet to expand or contract which can cause a creaking noise. This is not a malfunction. |
| Control buttons do not work                  | TV may be frozen                                    | • Unplug the power cord, wait a few seconds, then plug the cord back in and turn on your TV. |
| TV keeps turning off                         | Sleep timer may be turned on                       | • Make sure that the sleep timer is not turned on. |

- V-Chip (version 2.0): Yes
- Sleep timer: Yes
- Text-to-Speech: Yes
- Channel labeling: No
- VESA mount (mm): 200 × 200
- VESA mount screws: M6

**Note**

The length of the wall-mount screws vary depending on the wall-mount bracket you purchased. See the instructions that came with the wall-mount bracket for screw lengths.
LC-32LS591U / LC-32LS591C 32” HD LED 720p Sharp Roku TV

IMPORTANT: READ THIS AGREEMENT CAREFULLY IF YOU HAVE NOT AGREED TO THE ROYAL TV END USER LICENSE AGREEMENT ("EULA") ONCE THE FIRST TIME YOU POWER UP YOUR SHARP ROYAL TV. IF YOU HAVE NOT AGREED TO THE EULA, YOU MUST AGREE TO THE EULA BEFORE YOU CAN CONTINUE USING YOUR ROYAL TV.

By using your Television which uses the Roku platform to play digital content over the Internet ("Television"), and (b) any firmware and software that have been pre-installed on the Television or any firmware and software updates Roku provides to you for the Television (collectively, the "Software") by clicking the link available on your account on Roku's website ("Roku Account") or using the Television, you are agreeing to these Terms of Use. If you are a resident of the European Economic Area, by agreeing to this EULA, you expressly agree to waive your right to any court proceedings over which Roku may have jurisdiction. If you do not agree to this EULA, you may not be able to continue using your Television or Roku Account.

Changes to This EULA
Roku may amend this EULA at any time in its discretion. Such amendments shall be effective immediately upon posting of the amended EULA on Roku’s website or via the Television or your Roku Account, whichever occurs first. If you have a Roku Account that is linked to your Television, then in its option, Roku may also notify you of the amended EULA by sending a notice to the last email address you have provided to Roku. You agree to provide accurate and complete information if and when you set up your Roku Account, and you agree to promptly update your account information (including contact information) to keep it accurate and complete. You can do this at any time by signing in to your Roku Account by clicking the "Privacy Settings" link in the Roku Account settings menu. If you do not agree to the amended EULA, Roku may not be able to continue providing updates, upgrades or enhancements to your Television, and you may not be able to continue using your Television or Roku Account.

Changes to This EULA
Roku may amend this EULA at any time in its discretion. Such amendments shall be effective immediately upon posting of the amended EULA on Roku’s website or via the Television or your Roku Account, whichever occurs first. If you have a Roku Account that is linked to your Television, then in its option, Roku may also notify you of the amended EULA by sending a notice to the last email address you have provided to Roku. You agree to provide accurate and complete information if and when you set up your Roku Account, and you agree to promptly update your account information (including contact information) to keep it accurate and complete. You can do this at any time by signing in to your Roku Account by clicking the "Privacy Settings" link in the Roku Account settings menu. If you do not agree to the amended EULA, Roku may not be able to continue providing updates, upgrades or enhancements to your Television, and you may not be able to continue using your Television or Roku Account.
B. In all other cases, including if you are a resident of the United States (and its possessions and territories) or Canada, you agree that this EULA shall be governed by the laws of the State of California without regard to any conflict of laws principles that may provide the application of the law of another jurisdiction, and:

1. You and Roku agree to be bound by the procedures set forth below to resolve any and all claims between you and Roku arising out of or relating to any aspect of this EULA, whether based in contract, tort, statute, fraud, misrepresentation or any other legal theory, and which are not subject to, claims between you and Roku related to the Television and the Software. Each such claim is referred to individually as “Claim” and collectively as “Claims.”

2. YOU AND ROKU AGREE THAT, EXCEPT FOR THE CLAIMS IDENTIFIED IN PARAGRAPH 4 OF THIS SECTION BELOW, ANY AND ALL CLAIMS BETWEEN YOU AND ROKU SHALL BE FINALLY SETTLED BY BINDING ARBITRATION. The arbitration shall take place in Santa Clara County, California and shall be administered by the American Arbitration Association (“AAA”) pursuant to the AAA’s then-current rules, including (if applicable) the AAA’s Supplementary Procedures for Consumer-Related Disputes. Please be aware there is no judge or jury in arbitration. Arbitration procedures are simpler and more limited than the rules applicable in court, and review of the arbitrator’s decision by a court is limited.

You hereby irrevocably consent to the exclusive jurisdiction and venue of any court of competent jurisdiction in the Northern District of California or in a state court in Santa Clara County, California. You may bring such Claims against Roku in the Federal District Court for the Northern District of California or in a state court in Santa Clara County, California without regard to any conflict of laws principles that may provide the application of the law of another jurisdiction.

4. This agreement to arbitrate does not apply to any Claim (a) in which You are a consumer and a resident in any country in the European Economic Area where the sale of the Television is expressly authorized by its manufacturer, this EULA does not apply to you.

5. If the agreement to arbitrate in this provision is found to be invalid, unenforceable or inapplicable to a given Claim between You and Roku, then any and all proceedings to resolve such Claim must be brought exclusively in a federal court of competent jurisdiction in the Northern District of California or in a state court in Santa Clara County, California. You hereby irrevocably consent to the exclusive jurisdiction and venue of such courts.

6.30-Day Right to Opt Out: You have the right to opt out of this agreement to arbitrate by sending a written notice of your decision to opt out to the following address Legal Department, Roku, Inc., 150 Winchester Circle, Los Gatos, CA 95032, USA, provided that, such notice must be postmarked on or before the 30th day after the first to occur of the following events if you do not already have a Roku Account: (a) the date of purchase of Your Television, or (b) the date you create your Roku Account. If you have an existing Roku Account, all devices you choose to link to your Roku Account, and all services provided by Roku which are accessed using these devices, will be subject to this agreement to arbitrate. Your notice should include your full name, your current postal address, telephone number and email address, the product name and serial number for Your Television, and a copy of the original proof of purchase for your Television. If you timely send a notice in compliance with this paragraph 6, the agreement to arbitrate will not apply to either you or Roku. If you do not timely send this notice, then you agree to be bound by this agreement to arbitrate.

7. Notwithstanding any provision in this Agreement to the contrary, you agree that, if Roku seeks to delete or materially modify the agreement to arbitrate described herein, any such deletion or modification will not apply to any individual Claim of which you have notified Roku prior to such modification.

Miscellaneous

Roku may transfer its rights and obligations under this EULA to another organization. You may only transfer your rights or your obligations under this EULA to another person if Roku agrees in writing. This EULA is between you and Roku. No other person shall have any rights to enforce these terms. Each of the paragraphs of this EULA operates separately. If any court or relevant authority decides that any of them are unlawful, the remaining paragraphs will remain in full force and effect.

This arbitration provision is subject to the Federal Arbitration Act and the Federal Arbitration Act Act. The arbitrator’s award shall be binding on you and Roku, and may be entered in any court of competent jurisdiction.

3. Information on AAA and how arbitration is initiated can be found at www.adr.org or by calling 800-778-7879. For Claims between You and Roku of $75,000 or less, you will be responsible for the initial arbitration filing fee, up to the amount of the initial filing fee if you were to initiate a lawsuit against Roku based on such Claims or in court. If the arbitrator finds such Claims to be frivolous, Roku will pay your share of the initial arbitration filing fee for Claims between You and Roku in excess of $75,000, if you are able to demonstrate that the costs of arbitration will be prohibitive as compared to the costs of litigation, Roku will pay as much of your filing fees and the arbitrator’s fees for the arbitration as the arbitrator deems necessary to prevent the arbitration from being cost prohibitive as compared to the cost of litigation.

4. This agreement to arbitrate does not apply to any Claim (a) in which a party is attempting to protect its intellectual property rights (such as a patent, copyright, trademark, trade secret, or moral rights, but not including its privacy or publicity rights), or (b) that may be brought in small-claims court.

5. If the agreement to arbitrate in this provision is found to be invalid, unenforceable or inapplicable to a given Claim between You and Roku, then any and all proceedings to resolve such Claim must be brought exclusively in a federal court of competent jurisdiction in the Northern District of California or in a state court in Santa Clara County, California. You hereby irrevocably consent to the exclusive jurisdiction and venue of such courts.

SHARP • Roku TV
One-year limited warranty - Sharp Televisions

Definitions:
Best Buy ("Warrantor") warrants to you, the original purchaser of this new Sharp-branded television ("Product"), that the Product shall be free of defects in the original manufacture of the material or workmanship for a period of one (1) year from the date of your purchase of the Product ("Warranty Period"). For this warranty to apply, your Product must be purchased in the United States or Canada from a Best Buy authorized dealer of Sharp-branded products only that are packaged with this warranty statement.

How long does the coverage last?
The Warranty Period lasts for 1 year (365 days) from the date you purchased the Product. Your purchase date is printed on the receipt you received with the Product.

What does this warranty cover?
During the Warranty Period, if the original manufacture of the material or workmanship of the Product is determined to be defective by an authorized Warrantor repair center or store personnel, Warrantor will (at its sole option): (1) repair the Product with new or rebuilt comparable products or parts; or (2) replace the Product at no charge with new or rebuilt comparable products or parts. Products and parts replaced under this warranty become the property of Warrantor and are not returned to you. If service of Products or parts are required after the Warranty Period expires, you must pay all labor and parts charges.

How to obtain warranty service?
If you purchased the Product at a Best Buy retail store location and your Product has a screen size of less than 42 inches, please take your Product to any Best Buy store. Make sure that you place the Product in its original packaging or packaging that provides the same amount of protection as the original packaging. If you purchased the Product from a Best Buy online web site, mail your original receipt and the Product to the address listed on the web site. Make sure that you mail the Product in its original packaging or packaging that provides the same amount of protection as the original packaging.

Where is the warranty valid?
This warranty is valid only in the United States and Canada at Best Buy branded retail stores or websites to the original purchaser of the product in the county where the original purchase was made.

What does the warranty not cover?
This warranty does not cover:
• Customer instruction/education
• Installation
• Set up adjustments
• Cosmetic damage
• Damage due to acts of God, such as power surges
• Accident(s)
• Misuse, unintentional or intentional
• Abuse, unintentional or intentional
• Negligence
• Commercial purposes/use, including but not limited to use in a place of business or in communal areas of a multiple dwelling condominium or apartment complex, or otherwise used in a place of other than a private home.
• Modification of any part of the Product, including the antenna
• Damage due to incorrect operation or maintenance
• Connection to an incorrect voltage or power supply
• Outages, static or other problems with over-the-air reception of the television broadcast signals
• Attempted repair by anyone not authorized by Warrantor to service the Product
• Products sold "as is" or "with all faults"

LC-32LB591U / LC-32LB591C 32" HD LED 720p Sharp Roku TV

• Consumables, including but not limited to batteries (i.e. AA, AAA, C etc.)
• Products where the factory applied serial number has been altered or removed
• Loss or Theft of this product or any part of the product
• Failures or Damage caused by any contact including but not limited to liquids, gel, or pastes.
• Up to three (3) pixel failures (dots that are dark or incorrectly illuminated) grouped in an area smaller than one tenth (1/10) of the display size or up to five (5) pixel failures throughout the display. (Pixel based displays may contain a limited number of pixels that may not function normally.)
• Problems with delay in motion or action of video images while playing first-person style video games.

REPAIR REPLACEMENT AS PROVIDED UNDER THIS WARRANTY IS YOUR EXCLUSIVE REMEDY FOR BREACH OF WARRANTY. WARRANTOR SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTY ON THIS PRODUCT, INCLUDING, BUT NOT LIMITED TO, LOST DATA, LOSS OF USE OF YOUR PRODUCT, LOST BUSINESS OR LOST PROFITS. WARRANTOR MAKES NO OTHER EXPRESS WARRANTIES WITH RESPECT TO THE PRODUCT. ALL EXPRESS AND IMPLIED WARRANTIES FOR THE PRODUCT, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE WARRANTY PERIOD SET FORTH ABOVE AND NO WARRANTIES, WHETHER EXPRESS OR IMPLIED, WILL APPLY AFTER THE WARRANTY PERIOD. SOME STATES, PROVINCES AND JURISDICTIONS DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS. SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE OR PROVINCE TO PROVINCE.
